TESTIMONIALS

"I really feel that you guys did an outstanding programming job for me and kept me informed through the process every step of the way and that your fees were very reasonable, everything was done on time when you said it would be and done to my complete satisfaction. I can tell you right now if I run into anyone that needs your services I would be happy to recommend you."

Michael Tessitore

CEO / President

Olvis Immigration and Travel Services

www.olvis.com

"What I'm really impressed about Global Interactive Solutions, Inc. is that they're not the "ordinary" website development company who makes a very good promise at start and doesn't deliver - or worse, doesn't finish the project.

Even though the project took quite some time to finish, I'm proud to say that we were able to accomplish our goals and I got what I needed. "

Kudos,

Carl Ocab

www.CarlOcab.com

"The team did a great job. The new website looks really great; there is a real professional feel to it. Working with Global Interactive Solutions, Inc. has been very easy.

The project was delivered on time and you always kept me well informed on progress. All in all it has been a great partnership, looking forward to doing future projects together."

Stephen Kirkham

www.mathspert.com

"Great team, excellent communication skills. Definitely will work with them again."

Marin Gabriel

“Excellent cooperation, we are going to work with this service provider for a long term as we are very satisfied of the pricing structure and communication level.”

Elena Tudor
